

Map shows neighbourhood and Service District boundaries.

Crosspool Neighbourhood Profile 2006/07

This profile presents a series of data items with comparison to another neighbourhood, PCT, deprivation quintile, Service District, Enhanced Public Health Programme (EPHP) area or Sheffield as a whole. This analysis is available to the public and may be quoted, re-used, and freely published on websites. Previous years profiles also available.

Neighbourhoods are allocated to the PCT and service district with which the majority of its population is registered. Crosspool is allocated to Rivelin to Sheaf Service District, and was part of Sheffield South West PCT.

Trend data for all indicators and geographies is available in the Neighbourhood Trends Interactive Tool available from www.sheffield.nhs.uk/healthdata/4-1.php under Background Data. Further information and comparison between years is available in the Sheffield Health and Well-being Atlas, available from www.sheffield.nhs.uk/healthdata/4-6.php.

Crosspool Overview

This table shows how Crosspool compares to Sheffield, the quintiles of deprivation and Sheffield PCTs. Cells shaded green indicate that Crosspool is statistically significantly better than it's comparator and cells shaded red indicate that Crosspool is statistically significantly worse. Blank cells indicate no statistically significant difference. *data are suppressed due to small numbers

Indicator	Period	Indicator Value for Crosspool	Sheffield	Quintiles of Deprivation				
				MD	AA	AV	BA	LD
Births: Average Age of Mother at First Registerable Birth	2006	30.3 (21.3 - 39.4)
